Launch of the Project Website

The official FUTURE-STEM-HUB website has been launched and is now available at www.future-stem-hub.eu. The website serves as the central point of information for the community, offering the latest information and results. It also provides open access to the project's learning platform, where students can access the courses in English, Bulgarian, German, Spanish, Portuguese and Turkish.

Educational Materials for Course 1: 'Digital Primer: Artificial Intelligence Essentials'

The partnership has developed the educational materials for the first course, "Digital Primer: Artificial Intelligence Essentials", introducing secondary school students aged 15–18 to the fundamental concepts of AI. The five learning modules cover the history of AI, core concepts such as machine learning and neural networks, AI applications across industries, and the ethical implications and future of AI. Each module includes an infographic, a short video, practical exercises and a quiz, suitable for both independent learning and classroom use.
